

TO BE OR NOT TO BE —THAT IS THE QUESTION

We are compelled by circumstances beyond our control, and which we keenly regret, to inform subscribers of **Common Sense** that it is no longer possible to continue publication unless the \$1.00 subscription rate is increased to cover the bare costs incurred in publishing twenty-two issues annually without advertising revenue, the life-blood of any newspaper.

This rate was established by the late **Conde McGinley** nineteen years ago when he founded the paper. He knew at the time the subscription rate would not cover the cost of publishing **Common Sense** but he wanted to reach the grass-roots with his message.

Conde McGinley founded **Common Sense** with his own money, salvaged from his chain of drive-in restaurants in New Jersey, closed due to the effects of World War II. He hoped that large numbers of subscribers would subsidize the cost of publishing a newspaper without advertising revenue. His personal funds disappeared meeting the monthly deficits. Patriots and friends came to his rescue which enabled **Common Sense** to continue publication. Without their help **Common Sense** would have ceased publication long ago. Every item entering into the cost of production has increased; the cost of publishing **Common Sense**, as well as postage, has doubled, then tripled and finally quadrupled. In spite of increased costs, **Conde McGinley** held to the original subscription rate.

Common Sense must look to subscribers to meet the cost of publication.

We believe the increased revenue will cover the deficit. The present staff is determined to struggle along as they have done in the past on a bare subsistence level. Volunteer workers reduce **Common Sense** payrolls, salaries being paid only for unavoidable and necessary workers. That will continue to be the policy of the loyal followers of **Conde McGinley**. As most readers know, **Mr. McGinley** never received any salary as editor for over seventeen years.

Common Sense has earned the confidence of sources of information enjoyed by no other publication in the field. Patriotic organizations and publications rely on **Common Sense** for their information. What will become of the confidential files and library of rare books which enable **Common Sense** to unmask the communist conspiracy to an extent which worries the enemies within our gates more than words can describe? **Common Sense** is almost a miracle. The load is getting too heavy for the present staff to carry, and so we turn to our subscribers and to the Lord to solve our problems.

If **Common Sense** is forced to quit, imagine how its enemies will rejoice. The demise of **Common Sense** will give birth to the greatest effort the enemies of this nation have ever made to capture the country, lock, stock and barrel. There must be enough loyal patriots in this country willing to pay the \$3.00 subscription rate for **Common Sense** as an insurance premium that this will not happen. That \$3.00 will prove the best investment in security and survival for the institution for which the pioneers who carved this country out of a wilderness, gave their lives and their fortunes.

Common Sense is a factor in circulating information which will otherwise never reach the grass-roots of the nation and can prove the "straw that breaks the camel's back." It can also prove a factor in deciding the election of our next President, and our Congress too!

During the past year, since **Conde McGinley's** death, thousands of subscribers have written to us urging us to increase the \$1.00 subscription rate. These letters were from businessmen who understood that **Common Sense** must soon close its doors unless subscribers supplied the funds to keep it in business. They understood the \$1.00 sub-

scription rate covered only a small fraction of the cost of publication. We hope every subscriber will feel the same way about the increase.

YOU CAN HELP

—1964 is a critical year

During the summer months when activities fall off considerably, and patriots will be concerned with the Presidential nominations, we are giving our readers an opportunity to renew their subscriptions, or obtain new ones, at the present schedule of rates. Subscriptions will be renewed from present expiration date.

Send as generous a contribution as you can to assist us in our present emergency.

Our postage bills are exorbitant—\$16,000 for last year. Stamps in any denomination and any amount are welcome. Also sending a little extra or a few stamps when ordering books, papers, etc., helps defray cost of handling.

Calling All Patriots

—o— Continued from page 1 —o—

SIGNIFICANCE: This is a well organized attack by our enemies, foreign and domestic, to destroy this country as a "NATION UNDER GOD" by atheistic destruction of our Christian Faith, and destruction of our White Race by miscegenation.

They would set aside the ethnic quotas now in effect under the McCarran-Walter Law, letting anybody and everybody into our country on a "first come first served" basis. We would soon be flooded with agents from behind the Iron Curtain; hordes of all races and mixtures of races from everywhere. The Kennedy-Johnson Bill changes immigration from an alien privilege to an alien right. The country is no longer thinly populated. Finding jobs and living room for our normal population increase is difficult enough. This flood of immigrants would make it impossible. The politician who votes for this shows clearly he is irresponsible.

ACTION INDICATED: Most politicians think only in terms of keeping in office. The indignant demands by those who vote them into office, done on a large scale, will show them that the people's votes, not the support and largess of the forces which seek passage of these bills, are the essential elements in keeping their jobs.

(1) Demand of your Senators and Representatives in Congress, by personal visit, telephone, telegraph or letter that he vote against these bills, that you will work and vote against them if they don't.

(2) Get as many other people to do this as you possibly can.

(3) Reproduce this Alert (or order extra copies from us) and mail to as many people as you can.

(4) Demand of the Governor of your State, your Representative in the State legislature, and your Senator in that body that they put pressure on the State's Members of Congress to vote against these bills. These politicians are the ones upon whom you can exert the most direct pressure. They are even more sensitive to your vote than the Congressmen.

(5) Write to: The American Committee On Immigration Policies, The Dodge House, 20 "E" Street, N. W., Washington, D. C. 20001. They will furnish literature and instructions.

Planned Devaluation of U. S. Dollar

By Our European Correspondent

The red agitator **Gunnar Myrdal** (Swede) who is responsible for the integration movement was the teacher and is the friend of the Austrian foreign minister **Kreisky** (a Jew) who is presenting Myrdal's views and program of socialization to the Council of European States in the name of Austria. Not so long ago **Kreisky** visited Wash. D. C. and had conferences with **Rusk** and **Ball** and **Myrdal**. At the present international Bankers meeting in Vienna, this Jew foreign minister is meeting with **Dillon** (Lapowski) and the whole Rothschild, Warburg - Lasare Frieres clan of Jew bankers to plan "money policies" on an international scale. It has leaked out that **Dillon** came over to discuss the secretly planned Devaluation of the U. S. dollar in relation to the European currencies under the slogan to ease and make the world trade more "liquid."

Kreisky is the son of a Jew banker, politically a radical Socialist, who refugeed during WW II to Sweden where, in association with **Myrdal**, he handled pro-Soviet Help Committees and arranged credits for the Soviet interests abroad.

It seems the International clique deems the time is ripe to knock out another important support from under the U.S.A. by way of getting ready to use Europe's monetary powers, which are stateside represented in the Federal Reserve Bank to beggar the nation definitely and thus, through money pressure bring on a further step towards socialization in the U. S. A. Remember, the emergency measures for the President of the U. S. to take in times of economic crisis (take over of industry—communications—money institutes, etc.) are already at hand, voted by a docile congress as an "if and when" emergency law to add to the Presidential power. They knew only too well why they took their servant **Dillon** (alleged Republican) into the New Frontier setup. He's their trojan horse in economics since Eisenhower days who knowingly piloted U. S. economics to the spot they are on at this moment.
